Professional Experience

Front End Developer

Freelance | Aug 2022 - Present

- Developed custom websites using **React**, HTML/ CSS3 and **Javascript ES6**, such as this [small business site](#), which since creating has increased Purple Elephant Careers' clientele over 200%.
- Integrated APIs, custom features and bug fixed websites.
- Used React to migrate multi-page user experiences to single-page applications, such as my [Portfolio Site](#).

Profile

As a web developer with over 3 years of experience in a fast-paced and customer-focused environment, I bring a unique set of skills to the table. My previous experience as a shift leader has honed my ability to work with teams, manage multiple tasks, and ensure exceptional customer service. My passion for web development led me to participate in 2 hackathons, where I collaborated with other developers to build innovative solutions in a fast-paced environment. Those experiences sharpened my ability to work under pressure, think creatively, and work as part of a team. I am a driven and detail-oriented web developer with a passion for creating functional web experiences. My unique combination of experience in fast-paced environments, technical skills, and passion for web development make me an excellent candidate for any web development position.

Projects

[Age of Silver](#)

- Developed a full stack e-commerce application using **MERN** stack, Github Repo [Here](#).

[TeleCure](#)

- Remote healthcare web application for the Shellhacks 2022 Hackathon, Github Repo [Here](#).
